In with the ‘New’ School

The Future of K-12 Education in America

Amy Anderson
Senior Director, Donnell-Kay Foundation

David Cook
Director of Innovation and Partner Engagement, Kentucky Department of Education

Valerie Greenhill
Chief Learning Officer, EdLeader 21

Matt Williams
Vice President of Policy and Advocacy, KnowledgeWorks
In with the ‘New’ School: The Future of K-12 Education in America

December 4, 2014
The future is not a fixed point.

It is ours to create.
Innovating Toward a Vibrant Learning Ecosystem:
Ten Pathways for Transforming Learning

Katherine Prince
Senior Director, Strategic Foresight, KnowledgeWorks
The Innovation Pathways Framework

1. Learning Cultures
   - Create new personalized learning cultures

2. Learning Structures
   - Enable the development of diverse learning structures

3. Human Capital
   - Develop human capital for personalized learning ecosystems

4. Data Infrastructure
   - Develop a new, learner-focused data infrastructure

5. Assessment & Credentialing
   - Enable new forms of assessment and alternative credentialing

6. Funding
   - Establish equitable funding structures

7. Quality Assurance
   - Establish new quality assurance frameworks

8. Community Ownership
   - Foster community-wide ownership of learning

9. Leadership & Policy
   - Foster courageous leadership and policymaking

10. Public Will
    - Cultivate public will and understanding for transformation

Transform the Core of Learning

Transform Supporting Systemic Structures
Designing for Individuals

FROM

- Reform
- Industrial mindset
- Institutions
- One size fits most
- Scaling and replicating

TO

- Transformation
- Ecological mindset
- Individuals
- Learner-centered design principles
- Seeding and spreading
