

In my time serving as Chair, I developed a new appreciation for the extensive support Education Commission of the States offers to states. In particular, their recent, in-depth reports on dual/concurrent enrollment - my Chair's Initiative - provide states with the information necessary to give students a jumpstart on their college degrees and increase postsecondary education opportunities.

**STEVE BULLOCK**  
Governor  
State of Montana

I look forward to seeing my colleagues from across the country every year at the National Forum on Education Policy and the Winter Commissioners Meeting. I always leave Education Commission of the States' convenings with deeper knowledge and new ideas for improvements in my state.

**DOLORES GRESHAM**  
Chair, Education Committee  
Tennessee Senate

My office reached out to Education Commission of the States for support on school finance issues. The comprehensive technical assistance the organization provided helped pave the way for meaningful policy reform in our state.

**MELODY SCHOPP**  
Secretary of Education  
South Dakota

Education Commission of the States is my primary source for trusted research and policy expertise. I refer to their website often, look forward to reviewing their reports and value the personal assistance I've received from their staff over the years.

**BEN CANNON**  
Executive Director  
Oregon Higher Education Coordinating Commission
