Map Instructions

Information can be filtered by year, state and/or issue and sub-issue, or searched by keywords in bill titles.

- **To filter by state:** Click on a state on the map. Issues and sub-issues addressed in that state will display to the right of the map and a list of bills, with links to bill summaries, will appear below the map.
- **To filter by issue and sub-issue:** To the right of the map, click an issue area and then a sub-issue. The map will reset to show only those states that have enacted or vetoed bills related to your choices. Use the bill list under the map to view detailed summaries written by our policy team.
- Use the "Bill Title Keyword Search" bar above and to the right of the map to narrow your search further.

After filtering the bills, **view the bill list under the map and click on the arrow to view detailed summaries written by our policy team**.

*Do not use your browser's back button to return to the map – use the "Return to Map" button at the top of the bill page. To reset the map and/or issue area and sub-issue filter, use the "reset" button (|←) at the bottom of the page or the "Clear all filters" button at the top.

Tips and Tricks
- With your cursor on the map, click the magnifying glass and type a state name to go directly to that state.
- Zoom in or out using the scroll wheel on your mouse.
- Hold down the Ctrl button while clicking on states to choose multiple states.
- Hold down the Ctrl button to choose multiple issue areas or sub-issues.
